BIO 1114 Principles of Biology	BIOL 1114 General Biology

~

- ECU CHEM 1324 Chemical Principles is now the required Chemistry course for Nursing. MSC CHEM 1315 General College Chemistry I can be substituted for ECU's CHEM 1324 Chemical Principles with Department Approval.

General Education equivalencies can be found by referring to either the Oklahoma State Regents Transfer Matrix or the ECU Transfer Matrix. Both matrices can be found at www.ecok.edu by clicking on *Academics* and scrolling down to *Course Transfer Matrix*.

Articulated using MSC's A. S in General Studies.

****Will transfer as course content but not for upper level credit: Student should meet with an ECU advisor for more information.**

Articulated without a minor. A minor is not required, please see an advisor for appropriate courses.

NOTES:

A student transferring with an Associate degree in Arts or Science from MSC fulfills ECU's general education requirement by transferring his or her credit to East Central University. Transferring credit for general education does not eliminate or otherwise affect any of the following ECU requirements: (1) prerequisites; (2) specific requirements in majors, minors or related work in these areas; or (3) the requirements for teacher certification.

A student must earn at least 40 semester hours in upper-division courses (numbered 3000 or higher). A course taught at MSC may equate in content to an ECU 3000-4000 level course, but it will not be counted as part of the 40 hours of upper level courses.

A student must earn at least 60 semester hours, excluding physical activity courses, at a baccalaureate degree granting institution.
