**FACTS & FIGURES**  
*A Comparative Analysis on Campus Crime*

**Crime**

It is an unfortunate fact that criminal incidents of all types occur on college campuses. Most campuses around the country investigate and make public the nature of crimes, the quantity, and how they are investigated. East Central University subscribes to that approach and further believes that the public should know how active the University Police are in crime prevention and detection.

**Reporting Crimes**

Crime victims, regardless of how seemingly insignificant the crime, are encouraged to report the incident to the East Central Police Department. To report a crime, a victim or witness need only call the police department phone number, and a police officer will meet them to gather the information and investigate the crime. An official report is made with copies available to the victim. Each day the incidents from the previous day, excluding names, are summarized and made available to the East Central Administration, other law enforcement agencies, and the media. Each month the number of incidents in each category of crime are counted and reported to the Oklahoma State Bureau of Investigation. Each year, the FBI publishes a book of crime statistics called "Crime in the United States," which includes accurate accounting of the criminal incidents which occurred on the ECU campus.
