

## Honors Program Goals

- 1) To offer students enriched academic experiences, including enhanced interdisciplinary coursework and active learning opportunities, and emphasizing intellectual inquiry
- 2) To provide students with a core group of academically focused individuals who share the common goal of personal achievement and success
- 3) To challenge students to achieve to the best of their academic and personal abilities, fostering intellectual growth and informed and critical citizenship
- 4) To provide students increased direct contact with faculty and distinguished guest speakers
- 5) To encourage all students to participate in undergraduate research, to write about their research in a discipline-appropriate manner, and to present their results within the university setting and at regional and national meetings in their fields
- 6) To provide students with occasions for personal enrichment and leadership development through access to cultural and educational events as well as through service opportunities
- 7) To foster a living/learning environment conducive to academic and social growth
- 8) To assist students pursuing post-graduate education, major scholarships and fellowships, and other experiences beyond our institution
