Traditional Route to
Certification (Boot Camp)

The mission of the College of Education and Psychology is to provide quality programs that prepare students to enter careers in the fields of Education, Psychology, and Kinesiology (Health and Fitness).

> Bachelor Degrees

Early Childhood Education

This degree option prepares candidates for work in Early Childhood. It prepares candidates for a teaching certificate in preschool through third grade and to be leaders in the early childhood profession.

Elementary Education

This degree program prepares candidates for a teaching certificate that enables them to teach in first through eighth grades.

Psychology

A degree in Psychology prepares students for employment in fields requiring psychological training and also prepares students for graduate study in Psychology or fields related to the behavioral sciences.

Kinesiology

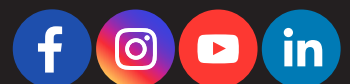

This degree option prepares students to work in environments related to movement, exercise, fitness, recreation and leisure.

COLLEGE OF EDUCATION & PSYCHOLOGY

> MASTER OF EDUCATION DEGREES

Sports Administration - MEd (online)

This degree programs specialization is designed to prepare the professional educator for positions as head coach, athletic director, or other administrative positions responsible for directing athletic programs.

School Counseling - MEd

The graduate program is designed for the graduate student specializing in counseling at the elementary or secondary level and leads to the Master of Education degree.

Educational Leadership - MEd (online)

This degree program is designed for working teachers who want to enter higher-level administrative roles. It emphasizes a combination of leadership theory and hands-on training that prepares you to become an effective decision-maker in education.

Special Education - MEd (online)

This online Master of Education explores the unique learning abilities and psychological requirements of children with disabilities. Our curriculum covers teaching methods and various technologies, as well as ethical and legal considerations, necessary to work in special education.

School Psychometry - MEd

This degree focuses on the applied knowledge needed in the development and use of educational and testing skills for student assessment. The curriculum is designed to address the educational and psychological concerns associated with educational assessment of students with routine and special needs in the classroom.

Library Media - MEd (online)

This Master of Education degree program is designed to prepare library students for certification as school librarians in PK-12 environments.

> MASTER OF PSYCHOLOGY DEGREES

Option A: School Psychology - MS

Focuses on the skills and knowledge needed for providing psychological services within public school settings. The curriculum is designed to prepare students to work with diverse childhood populations, including children from diverse demographic backgrounds as well as children with diverse learning, behavioral and emotional needs. Students who successfully complete this track will be eligible to seek state School Psychologist and School Psychometrist certification.

Option B: Counseling Psychology - MS

Focuses on the skills and knowledge needed to facilitate personal and interpersonal functioning within mental health practice and different community mental health settings. The curriculum is broad-based to prepare students working with many different populations. Students in this track will be eligible to seek state LPC and LBP licensure.

Option C: Sports Psychology - MS

Focuses on the applied knowledge needed in the development and use of psychological skills for the optimal performance and well-being of athletes. The curriculum is designed to address the performance and psychological concerns associated with sports involvement affecting athletes, coaches and families, as well as the developmental and social aspects of sports participation.

To prepare students for tomorrow's world through a dynamic & diverse learning experience.
