Department of Biological & Environmental Sciences

Majors Offered

Biology - Bachelor of Science
 Biology (Clinical Laboratory Scientist) - Bachelor of Science
 Biology (Ecology) - Bachelor of Science
 Biology (Health Sciences) - Bachelor of Science
 Biology (Medical Botany) - Bachelor of Science
 Biology (Molecular Biology) - Bachelor of Science
 Biology (Teacher Certification) - Bachelor of Science
 Env. Health Science - Bachelor of Science
 Env. Health Science - (Env. Mgmt. & Nat. Resource) - Bachelor of Science
 Env. Health Science (Public Health) - Bachelor of Science

Minors Offered

Biology
 Environmental Health Science
 Public Health
 Environmental Management & Natural Resources

Departmental Information

The Department of Biological & Environmental Sciences provides undergraduate training for students interested in the life sciences who may wish to pursue careers in this area. Biological & Environmental Sciences is a continually expanding discipline with a variety of career opportunities. The faculty and facilities of the Department permit the investigation of Biological & Environmental Sciences at the subcellular, cellular, organismal, population, and community level. Courses taught in the Department emphasize scientific principles and concepts that aid in understanding structure, function and behavior of individual organisms, and how individual organisms interact within the natural environment. Several scholarships are available to qualified students. Departmental scholarships include the Thomas J. McKnight Biology Scholarship and the Fred and Mary Pfeffer Scholarship. Other scholarships are available through the Academic Scholarship Program and the East Central University Foundation. For students who plan to teach, there are scholarships available through the College of Education and Psychology.

There are several clubs and societies available for Biological & Environmental Sciences students. The ones currently active are the Tri-Beta Club, the Pre-Dentistry Club, and the Society for Wildlife and Ecological Biologists.

Biology Degree Program

The Bachelor of Science in Biology degree program offers majors in six bachelor degree concentrations. A Bachelor of Science is designed for students who plan to become practicing biologists in industry or government, or plan to pursue a graduate degree in biology. This degree concentration is usually chosen by those students who need pre-professional training before entering the schools of medicine, dentistry, veterinary medicine, or other health-related professional schools. A Bachelor of Science for Teacher Certification gives a prospective science teacher an appropriate academic background in biology and in the methods of teaching. The Bachelor of Science for Molecular Biology prepares students for graduate research and/or employment in the rapidly growing fields of biotechnology, agribusiness, industry, law enforcement, and molecular biology. A Bachelor of Science for Clinical Laboratory Science prepares students to conduct and supervise complex medical tests, clinical trials, and research experiments; manage clinical laboratories; and consult with physicians and clinical researchers on diagnoses, disease causation and spread, and research outcomes. This degree concentration requires three years of prescribed study on campus followed by a year of clinical training in an approved hospital or School of Clinical Laboratory Science. A Bachelor of Science for Medical Botany empowers students to apply coursework in Botany, Zoology, Genetics, Physiology, Microbiology, Medical Botany, Entomology and Plant Ecophysiology. It provides flexibility through electives so that many path options are available all with the goal in mind of students understanding the complex relationship between plants and humans. Ultimately, this deep understanding will enable students to enter graduate school or employment so that they may transform their futures in biotech, agribusiness, pharmacology, medicine, homeopathy, horticulture, law, Native American affairs, research, industry and others into successful futures. A Bachelor of Science in Ecology, and a Bachelor of Science in Health Sciences are also offered.

Clinical Laboratory Science Concentration

Academic Colleges

This concentration requires a minimum of ninety-four semester hours credit of prescribed study on the campus, followed by a clinical component (30 hours) which consists of a year of approved professional training in Clinical Laboratory Science. The professional training must be done in a school of clinical laboratory science approved by the University and by the Oklahoma Consortium of Clinical Laboratory Science Affiliates.

Requirements for admission to the clinical component of clinical laboratory science:

- 1.) Complete the general education requirements.
- 2.) Complete prescribed science and math courses or equivalent courses.
- 3.) Complete a sufficient number of approved electives to complete the minimum requirement of ninety-four semester hours.
- 4.) Grade average must be a 2.5 or better overall and in the specific work in science and math.
- 5.) Ten semester hours of the ninety-four must be done in upper division courses (3000 and 4000 level).

Attainment of the requirements above does not guarantee admission to the clinical component of the program. The number of applicants placed is based on the number of applicants accepted by affiliated Schools of Clinical Laboratory Science.

Environmental Health Science Program

The Bachelor of Science in Environmental Health Science (EHS) provides graduates with the interdisciplinary education needed for professional careers in areas such as: hazardous materials management, environmental program planning, industrial food safety, disease vector control, occupational safety and health, and water resources management. Concentrations in the EHS Program include Bachelor of Science in EHS for Environmental Management and Natural Resources, and a Bachelor of Science in EHS for Public Health. Environmental Health Sciences program graduates have been selected for professional positions in public health departments, private industries, state and federal environmental agencies, the United States Public Health Service Commissioned Corps and in private environmental consulting firms. In addition, the program prepares EHS majors for graduate study in a wide variety of disciplines.

The EHS program is one of 31 baccalaureate programs accredited by the National Environmental Health Science and Protection Accreditation Council and has maintained accreditation since 1975. EHS majors must complete a total of 55 hours of core courses in environmental health and environmental science which includes a supervised, professional internship at an approved site. The internship provides students with an opportunity to integrate their academic preparation with actual work experiences. EHS majors must also complete supporting courses in biology, chemistry, physics, and mathematics. A minor is advised, but not required.

2024-2025 Biology/General - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Biology Core (20 Credit Hours)

BIOL 1114 General Biology
BIOL 1214 General Botany
BIOL 1314 General Zoology
BIOL 3434 Genetics

Select one of the following

BIOL 3514 General Physiology; OR
BIOL 3634 Human Physiology

Required for Biology/General Concentration (12 Credit Hours)

BIOL 2344 Microbiology
BIOL 4313 Cell and Molecular Biology
BIOL 4414 General Ecology
BIOL 4881 Biology Senior Seminar

Required Electives (16 Credit Hours)

Sixteen (16) hours of elective biology with minimum of 11 hours in 3000-4000 level courses (NOT BIOL 4473 or BIOL 4713).

Recommended Related Electives

CHEM 4114 Organic Chemistry II
CHEM 4213 Biochemistry
CHEM 4221 Biochemistry Lab
EHS 3703 Biostatistics
MATH 1223 Intro. to Probability & Statistics
PSYCH 3833 Behavioral Science Statistics
SOC 3833 Statistics for Social Sciences

Required Related Work (23 Credit Hours)

CHEM 1114 General Chemistry I
CHEM 1214 General Chemistry II
CHEM 3114 Organic Chemistry I
MATH 1513 College Algebra *; OR
MATH 2825 Calculus & Analytic Geometry I
PHYS 1114 General Physics I
PHYS 1214 General Physics II

General Electives (20 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

"Teachers" or "methods" courses may not be counted in this major.

Students interested in the 3+1 degree program (ECU and OSUCOM) can apply for early admission to the OSU College of Osteopathic Medicine and earn an ECU bachelors degree in biology by completing the first year of medical school at OSUCOM (D.O. Degree). Complete information on this program can be obtained from the Department of Biological and Environmental Sciences.

** With Department approval, students may omit MATH 1513 and being with MATH 2825.*

[Return to Department of Bio & Environ Sci.](#)

2024-2025 Biology/Clinical Lab Scientist - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Core Courses

BIOL 1114 General Biology
BIOL 1214 General Botany
BIOL 1314 General Zoology
BIOL 3434 Genetics

Select one of the following:

BIOL 3514 General Physiology; OR
BIOL 3634 Human Physiology

Required for Clinical Lab Scientist Concentration (42-43 Credit Hours)

BIOL 2344 Microbiology
BIOL 3683 Immunology
BIOL 4881 Senior Seminar
MEDTE 4117 Clinical Microbiology
MEDTE 4125 Clinical Chemistry I
MEDTE 4236 Clinical Hematology
MEDTE 4246 Clinical Immunology
MEDTE 4325 Clinical Chemistry II
MEDTE 4351 Topics in Med Tech

Select one of the following:

BIOL 2184 Human Anatomy; OR
BIOL 3245 Comparative Vertebrate Anatomy

Required Related Work (19-21 Credit Hours)

CHEM 1114 General Chemistry I
CHEM 1214 General Chemistry II
CHEM 3114 Organic Chemistry I
CHEM 4213 Biochemistry
CHEM 4221 Biochemistry Lab
MATH 1513 College Algebra*; OR
MATH 2825 Calculus & Analytic Geometry I

General Electives (7-11 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

"Teachers" or "methods" courses may not be counted in this major. A minor program is not required for this major.

Students interested in the 3+1 degree program (ECU and OSUCOM) can apply for early admission to the OSU College of Osteopathic Medicine and earn an ECU bachelors degree in biology by completing the first year of medical school at OSUCOM (D.O. Degree). Complete information on this program can be obtained from the Department of Biological and Environmental Sciences.

Department of Physical Sciences

Majors Offered

Chemistry - Bachelor of Science

Chemistry (Teacher Certification) - Bachelor of Science

Chemistry (Biochemistry) - Bachelor of Science

Physics - Bachelor of Science

Physics (Medical Physics) - Bachelor of Science

Physics (Teacher Certification) - Bachelor of Science

Minors Offered

Chemistry (contact department for details)

Physics

Departmental Information

The Department of Chemistry/Physics is comprised of two disciplines--Chemistry and Physics. The department offers Bachelor of Science degree programs with a major and a minor in each of these academic areas. Specific features of each program are detailed below.

Chemistry

The Department of Chemistry offers both a major and a minor in chemistry, a major in chemistry with a biochemistry concentration, a major in chemistry for teacher certification, and courses needed for those wishing to teach biology, chemistry, physics, physical science, or general science at the public school level. The department also functions as a support and service department for required courses in biology, nursing, environmental science, and allied health programs. Additionally, the department provides pre-professional studies for students pursuing medicine, engineering, pharmacy, veterinary medicine, physical therapy, and medical technology. A quality program of study is made possible through small classes, opportunity for student/professor interaction, and the unique situation of having the Robert S. Kerr Environmental Research Center located in Ada, OK. Cooperative agreements with this governmental institution allow expanded opportunities for study, research, quality analytical instrumentation, and possible student employment while at ECU.

Chemistry Program

In compliance with the recommendations of the American Chemical Society for curricula in undergraduate chemical education, the department offers courses in all five major areas of chemistry: inorganic, analytical, organic, physical, and biochemistry.

Physics

Physics is one of the most fundamental and all-inclusive of the sciences. It is an attempt to understand the foundations of our universe through the study of motion, force, energy, sound, electricity, magnetism, thermodynamics, heat, light, and quantum mechanics. Physics students use advanced mathematics to solve challenging experimental or theoretical problems, so they often major in mathematics as well. The ability to analyze a problem and find the best possible solution is vital to success in many fields. As a result, physics graduates often work in such seemingly non-related areas as medicine, law, biology, business, or military science, as well as in engineering, mathematics, computer science, or industry.

In addition to the university's program of financial aid, the department provides positions for student workers. Several departmental scholarships are awarded annually, and the department participates in the LS-OKAMP program awarding scholarships and research stipends for qualifying minority students. Interested students should contact the Department Chairman for further information.

Physics Program

In addition to the university's program of financial aid, the department provides positions for student workers. Several departmental scholarships are awarded annually, and the department participates in the LS-OKAMP program awarding scholarships and research stipends for qualifying minority students. Interested students should contact the Department Chairman for further information.

2024-2025 Chemistry (General) - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Chemistry Core (20 Credit Hours)

CHEM 1114 General Chemistry I
CHEM 1214 General Chemistry II
CHEM 3114 Organic Chemistry I
CHEM 3214 Quantitative Analysis I
CHEM 4114 Organic Chemistry II

Required for General Concentration (14 Credit Hours)

CHEM 3484 Instrumental Analysis
CHEM 4213 Biochemistry
CHEM 4413 Advanced Inorganic Chemistry
CHEM 4514 Physical Chemistry I

Required Electives (3-4 Credit Hours)

Select at least three (3) hours from the following:

CHEM 4221 Biochemistry Laboratory
CHEM 4421 Advanced Inorganic Chemistry Laboratory
CHEM 4614 Physical Chemistry II
CHEM 4981-4 Seminar in Chemistry
CHEM 4991-4 Individual Studies in Chemistry

Related Work (22-30 Credit Hours)

BIOL 1114 General Biology
MATH 1513 College Algebra*
MATH 1713 Trigonometry*
MATH 2825 Calculus & Analytical Geometry I
MATH 3025 Calculus & Analytical Geometry II
PHYS 1114 General Physics I; OR
PHYS 2115 Engineering Physics I
PHYS 1214 General Physics II; OR
PHYS 2225 Engineering Physics II

Recommended Related Work: Geology, additional physics, biology (not BIOL 1114) and computer science.

Minor (18-33 Credit Hours)

A minor is required for this program. The minor with the chemistry major must be biology, environmental health science, mathematics or physics.

General Electives (0-15 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

* With department approval, students may omit MATH 1513 and/or MATH 1713 and begin with MATH 2825.

"Teachers" or "methods" courses do not count in the major.

 Mathematics (General) - Bachelor of Science
 Mathematics (Teachers Cert.) - Bachelor of Science
 Mathematics (Data Science) - Bachelor of Science

Minors Offered

Computer Science
 Mathematics

Departmental Information

The Department Mathematics and Computer Science currently offers five concentrations which leads to a Bachelor of Science degree: General Mathematics, Teacher Certification in Mathematics, Mathematics - Applied/Pre-Actuary, Data Science Applications, and Computer Science.

The Mathematics Program offers four concentrations which lead to a Bachelor of Science degree. The curriculum is flexible and can be adapted to a variety of student interests. After completing one of the four concentrations, program graduates typically enter the job market as applied mathematicians in business

or industry, actuarial trainees, or certified teachers of secondary school mathematics. Some program graduates pursue study in graduate school leading to advanced degrees in mathematics, statistics, computer science, finance, or management science while others elect to pursue further study in a professional school such as law or medicine.

The Computer Science Program provides a solid education in all major areas of Computer Science with an emphasis on Software Engineering. Computer Science students complete a Bachelor of Science degree in four years. Our graduates are typically employed by large companies who need skilled software design specialists to work on the forefront of the field. Computing facilities include powerful Linuxbased and Windows based terminals as well as graphics workstations. Department computers have internet access and are loaded with mathematical and statistical software packages for use in classroom teaching, student research and downloadable for home use.

Mathematics Program - General Concentration

The General Mathematics concentration provides preparation for the student who plans to enter a graduate program in mathematics or to seek immediate employment. A student taking this concentration, in consultation with his or her advisor, should choose elective courses which meet the entrance requirements of the desired graduate program. This concentration is often part of a double major with Physics, Computer Science, or other sciences. In addition to the core courses required for all mathematics majors, students in this concentration also take courses emphasizing proof writing.

Mathematics Program - Teacher Certification Concentration

The Teacher Certification concentration, in conjunction with professional education courses, prepares students for teaching mathematics at the secondary level. Majors take courses in education, mathematics, and mathematics education. Curriculum emphasizes pedagogy, technology, diversity, and current trends in education. Graduates of this concentration are in high demand locally, state-wide, and nationally. Most graduates of this concentration quickly find employment in the country, or elsewhere in Oklahoma and surrounding states. In addition to the core courses required for all mathematics majors, students in this concentration also take courses specifically for education majors.

Mathematics Program - Applied Mathematics/Pre-Actuary Concentration

The Applied Mathematics/Pre-Actuary concentration prepares students for entry into the job market as an applied mathematician or actuarial trainee, for a career in finance, or for entry into a graduate program in applied mathematics, actuarial science, statistics, finance, or quantitative management science. In addition to the core courses required for all mathematics majors, students in this concentration also take courses in business.

Mathematics Program - Data Science Applications Concentration

The Data Science Applications concentration is for students interested in applying mathematics, statistics, and computer science to a wide range of business problems. With a broader focus, students in this concentration will be prepared to work in a variety of industries— analytics, data science and big data. Students finishing this program will have a variety of skills in mathematics, statistics, computer science, programming, and analytics. They will have specific skills related to data science in database design, data extraction, data wrangling, data scraping, data visualization, machine learning, deep learning, and artificial intelligence. Students will also gain the interdisciplinary skills to succeed in this fast-growing field. In addition to the core courses required for all mathematics majors, students in this concentration also take courses in computer science.

Computer Science Program

The Computer Science degree program prepares students for a career in the world of technology. Both online and in-seat options for majors of this program. Lucrative salaries and opportunities to work on interesting and challenging projects are the rewards which await those who choose the Computer Science major. Technology touches essentially every aspect of life. Students have access to a powerful Linux-based mainframe as well as the University computer network. Majors have access to both labs and 24/7 remote access. The curriculum is designed using guidelines published by the Association of Computing Machinery (ACM). Courses provide students excellent training in the scientific and technical areas of computing and the preparation necessary to pursue graduate work in this field. The course of study is mathematical in nature with emphasis on software engineering.

2024-2025 Computer Science - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Courses (27 Credit Hours)

CMPSC 1113 Computer Programming I
CMPSC 1133 Computer Programming II
CPSMA 2103 Data Structures
CPSMA 3103 Algorithm Analysis
CMPSC 3113 Operating Systems
CMPSC 3613 Computer Architecture
CMPSC 3943 Software Design & Development
CMPSC 4213 Data Base Design
CMPSC 4473 Theory of Programming Languages

Required Electives (18 Credit Hours)

Eighteen (18) hours in upper level Computer Science with at least twelve (12) hours in CMPSC courses.

Related Work (11-18 Credit Hours)

CPSMA 3913 Discrete Mathematics
MATH 1513 College Algebra*
MATH 1713 Trigonometry*

Select one of the following:

MATH 2825 Calculus & Analytical Geometry I; OR
MATH 2613 Calculus for Bus, Life & Soc. Sci.

If MATH 2613 is chosen from above, then choose one of the following:

MATH 1223 Intro to Probability & Statistics; OR
BSEC 2603 Business & Economic Statistics

Select one of the following:

BUCOM 3133 Business Communication & Report Writing

COMM 1113 Fundamentals of Human Communication
ENG 3183 Technical & Professional Writing

General Electives (26-36 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student. Students majoring in computer science are highly encouraged to take upper-level computer science electives to make themselves more attractive to industry recruiters.

Special Requirements

* With department approval, students may omit MATH 1513 and/or MATH 1713 and begin with MATH 2825.
A minor program is not required for this major.

MIS 3433 Management Information Systems

General Electives (10-16 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

Math 1413 "teachers" or "methods" courses will not be counted in the major.

* With department approval, students may omit MATH 1513 and/or MATH 1713 and begin with MATH 2825.

A minor program is not required for this major.

Actuaries must pass a series of exams administered by the Society of Actuaries (SOA) in order to achieve professional status as an actuary. The first exam, Exam P, covers probability and supporting calculus topics. Pre-actuary students should take this exam after completing MATH 3513 Mathematical Statistics. The second exam, Exam FM, covers interest theory and financial economics. This exam should be taken after FIN 3113 Financial Management. Other SOA exams cover subjects as risk and risk management.

2024-2025 Mathematics (General) - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Mathematics Core (22-28 Credit Hours)

MATH 1513 College Algebra*
MATH 1223 Intro to Probability & Statistics
MATH 1713 Trigonometry*
MATH 2825 Calculus & Analytic Geometry I
MATH 3025 Calculus & Analytic Geometry II
MATH 3033 Calculus & Analytic Geometry III
MATH 3713 Linear Algebra
MATH 4923 Perspectives in Mathematics

Required for General Mathematics Concentration (12 Credit Hours)

MATH 3093 Intro to Theorem Prov & Number Theory
MATH 3813 Modern Algebra
MATH 4113 Differential Equations
MATH 4133 Intermediate Analysis

Required Mathematics Electives (12 Credit Hours)

Twelve (12) hours mathematics electives (3000-4000 level).

Related Work (3 Credit Hours)

CMPSC 1113 Computer Programming; OR
other computer programming course in a high language (logical, functional, or procedural, including Mathematica).

General Electives (34-37 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

Math 1413 "teachers" or "methods" courses will not be counted in the major.

* With department approval, students may omit MATH 1513 and/or MATH 1713 and begin with MATH 2825.

A minor program is not required for this major.

2024-2025 Mathematics (Teachers Certification) - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Mathematics Core (22-28 Credit Hours)

MATH 1513 College Algebra*
MATH 1223 Intro to Probability & Statistics
MATH 1713 Trigonometry*
MATH 2825 Calculus & Analytic Geometry I
MATH 3025 Calculus & Analytic Geometry II
MATH 3033 Calculus & Analytic Geometry III
MATH 3713 Linear Algebra
MATH 4923 Perspectives in Mathematics

Required for Teacher Certification Concentration (17 Credit Hours)

MATH 3913 Discrete Mathematics
MATH 3093 Intro to Theorem Prov & Number Theory
MATH 3213 College Geometry
MATH 3013 Modern Algebra
MATH 4915 Methods of Teaching Secondary Math

Required Mathematics Electives (6 Credit Hours)

Six (6) hours of mathematics electives (3000-4000) level.

Related Work (9 Credit Hours)

CMPSC 1113 Computer Programming I; OR
other computer programming course in a high level language (logical, functional or procedural, including Mathematica).
COMM 1113 Fundamentals of Human Comm
PSYCH 1113 General Psychology

Minor

Professional Education is used as the minor and no other minor is required for this major.

Professional Education (30 Credit Hours)

EDUC 2402 Survey of Excep Child
PSYCH 3463 Child & Adolescent Psych
EDUC 2012 Foundations of Educ
EDUC 2631 Foundations of Educ Technology
EDUC 2211 Field Experience I
EDPSY 3513 Educ Psych
EDUC 3001 Field Experience II
EDUC 4052 Effective Teaching in Secondary Education

EDUC 4611 Field Experience III
 EDUC 4632 Education Technology Integration Strategies
 EDUC 4262 Student Teaching Seminar I
 EDUC 4282 Student Teaching Seminar II
 EDUC 4974 Sup Student Tchg Secondary School
 EDUC 4974 Sup Student Tchg Secondary School

2024-2025 Mathematics (Data Science) - Bachelor of Science (120 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

Required Mathematics Core (22-28 Credit Hours)

MATH 1513 College Algebra*
 MATH 1223 Intro to Probability and Statistics
 MATH 1713 Trigonometry*
 MATH 2825 Calculus and Analytic Geometry I
 MATH 3025 Calculus and Analytic Geometry II
 MATH 3033 Calculus and Analytic Geometry III
 MATH 3713 Linear Algebra
 MATH 4923 Perspectives in Mathematics

Required for Data Science Concentration (18 Credit Hours)

CPSMA 2103 Data Structures
 CPSMA 3813 Data Mining
 CPSMA 4313 Data Processing and Visualization
 CPSMA 4513 Data Applications in Business
 MATH 3513 Mathematical Statistics
 MATH 3583 Applied Statistics

Required Mathematics Electives (6 Credit Hours)

Select two of the following courses.

CPSMA 3913 Discrete Mathematics
 CPSMA 3933 Operations Research
 CPSMA 4413 Numerical Methods

Related Work (12 Credit Hours)

CMPSC 1113 Computer Programming I
 CMPSC 1133 Computer Programming II
 CMPSC 3313 Advanced Computer Languages
 CMPSC 4213 Data Base Design

Minor

A minor is not required for this program.

General Electives (22-31 Credit Hours)

An elective course is any college-level course not required by the major program, but utilized to reach the minimum 120 credit hour requirement for degree completion. Elective courses are chosen according to the interest of the student.

Special Requirements

Math 1413 "teachers" or "methods" courses will not be counted in the major.

* With department approval, students may omit MATH 1513 and/or MATH 1713 and begin with MATH 2825.

2024-2025 Minor in Computer Science (18 Credit Hours)

Required Courses

CMPSC 1113 Computer Programming I

CMPSC 1133 Computer Programming II
CPSMA 2103 Data Structures
Nine (9) hours of elective computer science courses.

Special Requirements

Must earn three (3) hours of upper division work at ECU towards minor to complete minor residency requirement.

2024-2025 Minor in Mathematics (19 Credit Hours)

Required Courses

MATH 1513 College Algebra

MATH 1713 Trigonometry

MATH 2825 Calculus & Analytic Geometry I

MATH 3025 Calculus & Analytic Geometry II

Three (3) hours of mathematics electives above MATH 1713.

Special Requirements

In approved cases, upper division courses may be substituted for MATH 1513 and/or MATH 1713.

"Teachers" or "methods" courses are not to be counted in the minor.

Must earn three (3) hours of upper division work at ECU towards minor to complete minor residency requirement.

School of Nursing

Majors Offered

[Nursing - Bachelor of Science](#)

Departmental Information

Accreditation

The ECU School of Nursing is approved by the Oklahoma Board of Nursing. Graduates of this state-approved program are eligible to write the National Council Licensure Examination (NCLEX) for registered nurses. Applicants for Oklahoma licensure must meet all state and federal requirements to hold an Oklahoma license and practice nursing. Specific requirements may be found at Oklahoma Board of Nursing. The School of Nursing at East Central University located in Ada, Oklahoma is accredited by the: Accreditation Commission for Education in Nursing (ACEN) 3390 Peachtree Road NE, Suite 1400 Atlanta, GA 30326. 405-975-5000. The most recent accreditation decision made by the ACEN Board of Commissioners for the ECU School of Nursing is continuing accreditation. View the public information disclosed by the ACEN regarding this program at www.acennursing.us/accreditedprograms/programSearch/htm

Pre-Licensure Nursing Program

The School of Nursing offers the Bachelor of Science with a major in Nursing degree to pre-licensure students. A minimum of 121 hours is required for graduation, to include 40 general education, 21 required related work, and 60 in the major. Courses prepare students to provide high-quality, professional nursing care in a variety of settings. See additional information at School of Nursing. Due to the prior work experience of LPN pathway nursing students, all academic deficiency/remediations will be waived.

Pre-Licensure Admission Requirements

Admission decisions are based upon published criteria, faculty input, and program outcomes. The fall semester admission cycle opens October 1st and closes March 1; the spring semester admission cycle opens on April 1st and closes September 1st. Any exceptions to admission criterion must be reviewed and approved on a case-by-case basis by the Director and a committee of faculty. Students should work with their nursing advisor regarding the need for a possible exception.

1. Must meet university admission requirements; apply and be accepted to ECU prior to starting the program.
2. Minimum retention and program grade point average of 2.7/4.0, and grades of "C" or higher in all required related work.
3. Completion of a minimum of 24 credit hours of general education/ required related work/support courses, or the equivalent thereof at the time of application.
4. English Comp I & II, Math requirement, Chemistry, Biology, Human Anatomy (A&P I), Nutrition, and General Psychology must be completed prior to beginning the program.
5. Entrance exam must be taken by the application deadline, with a minimum score achieved, as outlined in the application information.
6. Once provisionally admitted, complete all remaining requirement related to clinical, attestations, and accreditation.

2024-2025 Nursing - Bachelor of Science (121 Credit Hours)

The 120 credit hours includes ECU's 40 hour general education program.

General Education

This program requires specific courses to be applied toward general education requirements. Seventeen (17) hours (BIOL 1114, CHEM 1114 or CHEM 1324, KIN 2183, MATH 1513 or MATH 1613, and PSYCH 1113) counted in the major.

Required Core Courses (36 Credit Hours)

NRSG 1142 Introduction to Professional Nursing
 NRSG 2104 Foundations in Nursing
 NRSG 3118 Med Surg I
 NRSG 3193 Pharmacology I
 NRSG 3218 Med Surg II
 NRSG 3393 Pharmacology II
 NRSG 4164 Nursing-Childbearing Family
 NRSG 4214 Psychiatric-Mental Health Nursing

Required in Nursing Major (24 Credit Hours)

NRSG 2224 Physical Assessment
 NRSG 3883 Nursing Research
 NRSG 4375 Med Surg III
 NRSG 4513 Prioritization & Critical Thinking
 NRSG 4283 Community Health Nursing
 NRSG 4382 Leadership in Nursing
 NRSG 4954 Transition to Professional Practice

Related Work (38 Credit Hours)

BIOL 1114 General Biology
 BIOL 2184 Human Anatomy
 BIOL 2344 General Microbiology
 BIOL 3634 Human Physiology
 CHEM 1114 General Chemistry; OR
 CHEM 1324 Chemical Principles
 KIN 2183 Basic Nutrition
 MATH 1513 College Algebra; OR
 MATH 1613 Functions & Modeling
 PSYCH 1113 General Psychology
 PSYCH 3463 Child & Adolescent Psychology

Three (3) hours introductory statistics OR one of the following:

BSEC 2603 Business & Economic Statistics
 EHS 3703 Biostatistics
 MATH 1223 Intro to Probability Statistics
 PSYCH 3883 Behavioral Science Statistics
 SOC 3833 Stats for Social Sciences

*Three (3) hour Computer course to meet OSHRE computer proficiency requirement.

Nursing Electives

NRSG 4673 Healthcare Communications
 NRSG 4683 Current Topics in Nursing
 NRSG 4981-5 Seminar in Nursing
 NRSG 4991-4 Individual Studies in Nursing

Special Requirements

A minor program is not required for this major.
