NOTES:

- ⇒ Articulated using OCCC's A.S. Pre-Baccalaureate Nursing.
- ⇒ Articulated without a minor. A minor is not required, if a minor is desired, please see an advisor for appropriate courses.
- ⇒ **Will transfer as course content but not for upper level credit: Student should meet with an ECU advisor for more information.
- ⇒ **** Equivalent courses to MATH 1023 Intro to Probability and Statistics, BSEC 2603 Business & Economic Statistics, PSYCH 3833 Behavioral Science Statistics or other introductory statistic course will satisfy the statistic requirement for the major. If not taken at OCCC it will have to be taken at ECU
- ⇒ < An equivalent to ECU's CHEM 1114 General Chemistry or CHEM 1324 Chemical Principles will meet the major requirement for Chemistry.
- ⇒ A student transferring with an Associate degree in Arts or Science from OCCC fulfills ECU's general education requirement by transferring his or her credit to East Central University. Transferring credit for general education does not eliminate or otherwise affect any of the following ECU requirements: (1) prerequisites; (2) specific requirements in majors, minors or related work in these areas; or (3) the requirements for teacher certification.
- ⇒ General Education equivalencies can be found by referring to either the Oklahoma State Regents Transfer Matrix or the ECU Transfer Matrix. Both matrices can be found at www.ecok.edu by clicking on *Academics* and scrolling down to *Course Transfer Matrix*. A student must earn at least 40 semester hours in upper-division courses (numbered 3000 or higher). A course taught at OCCC may equate in content to an ECU 3000-4000 level course, but it will not be counted as part of the 40 hours of upper level courses.
- ⇒ A student must earn at least 60 semester hours, excluding physical activity courses, at a baccalaureate degree granting institution.
- ⇒ A Student must earn at least 124 credit hours that apply to an ECU Bachelor's degree.
