Impact Measures

Measure 4: (Initial and Advanced) Ability of completers to be hired. (in positions for which they have prepared)

Office of Educational Quality and Accountability (OEQA) First-Year Teacher Survey

The Office of Educational Quality and Accountability (OEQA) administers the First-Year Teacher Survey every spring to recent EPP completers employed in an Oklahoma school district. This survey aligns to the Interstate Teacher Assessment and Support Consortium (InTASC) standards, and data collected assess how first-year teachers perceive the preparation that the EPP provided them.

2020 – 2022 First-Year Teacher Survey Results (Attachment #1)

While a teacher shortage currently exists in Oklahoma, which is being filled with emergency and alternatively certified teachers, the EPP developed the following report to examine the retention of completers in the career field. For 21-22, the Oklahoma State Department of Education did not provide data to the OEQA, so the OEQA administration directed Oklahoma EPPs to make a notation in their annual reporting measure that "data have not been provided by the Oklahoma State Department of Education."
