The Chicago Tribune!
(NACE 2018 Salary Report)

The Mission of the College of Education and Psychology is to provide quality programs that prepare students to enter careers in the fields of Education; Human Development, Hospitality and Food Science; Psychology; and Kinesiology (Health and Fitness). The College of Education and Psychology provides educational experiences for the departments of Education; Human Development, Hospitality and Food Science; Kinesiology; and Psychology.

› Bachelor Degrees

› Early Childhood Education

This degree option prepares candidates for work in Early Childhood. This degree prepares candidates for a teaching certificate in preschool through third grade and to be leaders in the early childhood profession.

› Elementary Education

This degree program prepares candidates for a teaching certificate that enables them to teach in first through eighth grades.

› Human Development, Hospitality, & Food Science

Human Development, Hospitality, and Food Science is a multi-dimensional program that offers challenge, diversity and opportunity. Graduates may pursue graduate studies or enter the labor force.

› Kinesiology

Kinesiology prepares students to work in environments related to movement, exercise, fitness, recreation and leisure.

› Psychology

A degree in psychology prepares students for employment in fields requiring psychological training and also prepares students for graduate study in psychology or fields related to the behavioral science.

› Certificate Programs

The College of Education and Psychology offers a variety of certification options. Please see the dean for more information.

College of Education & Psychology

> Master of Education Degrees

> Sports Administration ~ MEd (online)

The Master of Education, Secondary Education option, Sports Administration specialization is designed to prepare the professional educator for positions as head coach, athletic director, or other administrative positions responsible for directing athletic programs.

> Instructional Design & Technology ~ MEd (online)

This degree program is to prepare secondary school educators for employment in the schools of the state and nation in the specialization of Instructional Design and Technology.

> Secondary Education Academic Discipline ~ MEd

This graduate program is designed to provide 18 hours of secondary content specialization to meet the demand for highly qualified teachers for secondary public schools and to provide content area graduate level courses for those who desire to teach at the community college level.

> School Psychometry ~ MEd

This degree focuses on the applied knowledge needed in the development and use of educational and testing skills for student assessment. The curriculum is designed to address the educational and psychological concerns associated with educational assessment of students with routine and special needs in the classroom.

> School Counseling ~ MEd

The graduate program option for the school counselor is designed for the graduate student specializing in counseling at the elementary or secondary level and leads to the Master of Education Degree.

> School Leadership ~ MEd (online)

This degree program is to prepare secondary school educators for employment in the schools of the state and nation in the specialization of Educational Technology.

> Library Media ~ MEd (online)

The Master of Education in Library Media is designed to prepare library media specialists for employment in the schools of the state and nation.

> Master of Psychology Degrees

> Option A: School Psychology ~ MS

Focuses on the skills and knowledge needed for providing psychological services within public school settings. The curriculum is designed to prepare students to work with diverse childhood populations, including children from diverse demographic backgrounds as well as children with diverse learning, behavior, and emotional needs. Students who successfully complete this track will be eligible to seek state School Psychologist and School Psychometrist certification.

> Option B: Counseling Psychology ~ MS

Focuses on the skills and knowledge needed to facilitate personal and interpersonal functioning within mental health practice and different community mental health settings. The curriculum is broad-based to prepare students working with many different populations. Students in this track will be eligible to seek state LPC and LBP licensure.

> Option C: Sports Psychology ~ MS

Focuses on the applied knowledge needed in the development and use of psychological skills for the optimal performance and well-being of athletes. The curriculum is designed to address the performance and psychological concerns associated with sports involvement affecting athletes, coaches, and families as well as the developmental and social aspects of sports participation.
