

Updated ECU Intramurals & Esports Schedules

Intramurals

Intramural sports typically begin in September. These events will occur contingent on CDC guidelines and campus event procedures. We can keep numbers below 50 by spacing out games and limiting or prohibiting audience. We will communicate with Athletics and follow their lead.

Esports (beginning June 15)

Lab open to Esports teams and coaches only. There will be a standing schedule with rosters for each practice session. A spacing of six feet between each person must be maintained. Each station, including peripherals, must be wiped down as players enter and leave. Tournaments will be held online only.
